

EABC Board of Directors Candidate

Name: Mr. Georg Wolff

Company: Civil Engineering Solutions (Thailand) CO LTD

Contributions to EABC

I believe that in our society the most important goal should be to bring people peace and prosperity. The European Union is a major step in this direction. I am grateful to live in Thailand and would like to support Thailand as much as possible. This is made possible by working in the EABC. Here I can use my experiences from more than 25 years of work in international committees. I founded the EABC working group Rail & Road Infrastructure and helped founding the Working Group on Tourism. I like to represent the EABC at meetings with official Thai authorities. Most important to me is the transfer of know-how from Europe to Thailand, as I am sure that it helps European companies to have better access to markets in Thailand. My achievements for the EABC over the past five years are documented on the EABC website.
